## About

We are the world's first repository platform for cutting-edge scientific lectures, research, discussion and conference live-streaming.

Introducing an online video platform custom built for scientific and academic events, we aggregate and host conference content in both a live and virtual environment, allowing presenters to reach new global audiences while also giving conference attendees the ability to watch any content they might have missed.

[Meet the Team](#)

## Mission

*Our Mission is to digitize scientific knowledge through video, making it globally accessible and useful by enriching, preserving and aggregating conference content. Science is a global discipline, and we all need to be unified. We all need to work together now towards an open society and connected world. We need to build bridges, not barriers. Underline Science is part of that global bridge.*

Alex Lazinica  
CEO

## underline Events

**Scientific Conference Experts** for onsite, hybrid or virtual events trusted by **200+** events covering **different disciplines**

Most recent including:

**AAAI 2023; EMNLP 2022; IEEE IEDM 2022; 2022 AACL-IJCNLP**

[Upcoming events](#)

[Past events](#)

First,  
biggest, and  
groundbreaking  
... *and the rest is  
history*

**EMNLP 2021: underline's first hybrid event** in numbers:

- 5 days
- 23 workshops
- 54 oral sessions (always 6 in parallel)
- 2796 lectures
- 2 satellite conferences
- 348 guest speakers (presenting either in-person or remotely)
- 500 people on site and 4000 attending remotely
- 2379 EMNLP 2021 papers available in underline Science

## underline Science

*\*March 1st, 2023*

**Digital library** of groundbreaking research featuring:

- more than **29K** curated and aggregated videos of lectures and presentations from top scientific and medical conferences
- multidisciplinary coverage
- links to presentation slides, proceedings, posters, and more

*Supporting researchers, faculty, students and practitioners  
on their path to success.*

## Added Value

**A platform that's easy for researchers to access and use:**

- Linked DOIs
- Accessible to WCAG 2.1AA standards
- MARC records available
- Searchable transcripts
- Stay on top of most recent developments in your field
- Access content at any time
- Cite and reference videos as scholarly resources
- Ongoing discussion with paper authors

**Four major science areas:**

Life sciences - Health Sciences - Social Sciences and Humanities - Physical Sciences, Engineering and Technology

- **613** keynote speakers
- **13830** technical papers
- **2143** workshop papers
- **116** tutorials
- **11619** posters, and many more

**29,503 lectures  
from world's  
best events**

*\*March 1st, 2023*

## Featuring

**Enjoy the talks of  
leading authors  
and speakers:**

Hiroshi Ishiguro (*Osaka University*)  
Miroslav Radman (*University of Paris Descartes*)  
Martha Palmer (*University of Colorado at Boulder*)  
Richard Roberts (*New England Biolabs*)  
Anima Anandkumar (*Caltech and NVIDIA*)  
Tuomas Sandholm (*Carnegie Mellon University*)  
Sebastien Bubeck (*Microsoft Research*)  
Sami Haddadin (*Technical University of Munich*)  
Susan Murphy (*Harvard University*)

# underline

- **14,749** - number of users
- **50,498** - pageviews
- **551** - presentation slides downloaded
- **415** - papers downloaded
- **248** - number of citations
- *AI* and *robotics* - most searched topics

We are proud to present our newest subscribers

- Harvard University
- Carnegie Mellon University
- University of Western Ontario
- American Anthropological Association
- Czech University of Life Sciences

## Library Statistics

*\*since the launch in November 2022*

## underline Originals

Imagine sitting across from Nobel laureates and top scientists, sharing the genesis of their groundbreaking research and scientific advances!

underline Originals bring you closer to some of the world's most brilliant minds, through a collection of beautifully produced master classes.

*\*\*Available only to underline Science subscribers*

## Content Partners

More than **100** associations, events, and publishers such as:

- **AAAI** - Association for the Advancement of Artificial Intelligence
- **AIP** - American Institute of Physics
- **ACL** - Association for Computational Linguistics
- **INSTICC** - Institute for Systems and Technologies of Information, Control and Communication
- **IEEE** - Institute of Electrical and Electronics Engineers
- **Wiley**

## Distribution Partner

**ProQuest**

## Technology Partners

Underline is proud to collaborate with industry leaders:

- amazon web services
- DataCite
- Google Cloud
- Infinum
- IntechOpen
- ORCHID
- Omnisearch
